

# Daletrax 4wd Mobility Adventures 2010

**All inclusive package deal  
4wd Adventures in the  
French Dordogne**

## **Who is this Adventure Package Aimed at?**

**Anyone with a Mobility issue and their family or support team. . . . .**

**If you hold a current driving licence you can drive our 4wd Vehicles Off Road under the guidance of our instructors.**

**If you are unable to drive then you can still experience the 4wd Adventures with our drivers.**

Our Aim is to let you experience an exciting 4wd Adventure, driving through the wonderful mixed terrain of the rural French Dordogne Region.

You will have the opportunity to indulge in the local cuisine, take in the laid back French Country lifestyle and soak up the atmosphere.

We take time out to view the ancient Bastide Towns, Chateaux and Panoramic Views of the area as well as visit the local markets.

Following on from our successful involvement with Landrover UK over the past 7 Years and, more recently with the Help for Heroes Charity, also Phil Packer ([www.philpacker.com](http://www.philpacker.com)) our Adventures here in France are an opportunity for those who have mobility issues as a result of active service in the armed forces or other issues in civilian life, to join us here in France for some R & R together with their friends and family or support team.

*Daletrax – Xplorability Manager Paul Sinkinson working with Landrover Experience and Phil Packer at Eastnor Castle UK for the Help for Heroes Adventure Day in August 2009*

For 2010 we have Gite and other accommodation available for both the walking wounded and those who require wheelchair access. You can arrive by air, Rail or your own vehicle.

Use our contacts page to let us know your requirements and we will forward details of our 4wd Mobility Adventure Packages by return. [www.daletrax.co.uk](http://www.daletrax.co.uk)

This is our Landrover Discovery which is Fitted with the Gosling Push/Pull Hand Controls and Automatic Gearbox.

We use and carry the standard easy access wheelchair ramp

We are also able to utilise the easily installed Lynx Hand Control to some of our other vehicles if these are required.

We recommended their use on the recent Landrover Experience Adventure Day we organised for the “Help for Heroes” Charity at Eastnor Castle in the UK.
